# Danes of Destruction

Danes are known for their large size and noble presence. Their love of people and easygoing nature make them wonderful companions. However, allowing unsupervised time may result in mayhem in direct proportion to their size.

## The Gardener

Danes are always happy to lend a "paw" and assist their owners in gardening.

## The Opportunist

"Fully stocked Pantry?  
Don't mind if I do!"

## The Garbage Disposal

It's never too early to start!

## The Furniture Fanatic

You were ready for a new armchair anyway, right?

## The Exterminator

On the plus side, all your termites are gone.

A young Dane needs adequate exercise, proper training and supervision to prevent becoming a one-dog demolition crew. The proper use of a crate during unsupervised time can be a godsend.
